**3 Day Integrative Immersion Therapy Sessions Commitment**

*Thank you. Thank you. I am so honored to be part of your journey.*

I, \_\_\_\_\_, am entering into a commitment to work with Adrienne Provent, CCH, LMT, LPN, for three sessions of bodywork to facilitate the healing and release of fascia and muscle. In this session, I understand that I may become aware of emotions and feelings from the past, and I will be encouraged to just hold space for whatever comes up in those moments.

I understand that previous physical issues may surface as a result of years of compensation and movement that kept myself in a place where I could continue to do what needed to be done, (i.e., work, taking care of family). I understand that there can be moments like the above mentioned and that healing crises are a sign of releasing what no longer serves any part of energetic or physical body.

The dates of these three sessions have been set before this commitment and the charge is \$450. The first session is 2 hours and 15 minutes, and the remaining two sessions, 90 minutes. If for any reason, I must break this commitment, I understand that the first session is \$205, and the remaining two 90-minute sessions are \$145 each. The remainder will be refunded according to the charges as stated.

If for any reason, I feel sick before our sessions begin, with any cold or virus symptoms, or any autoimmune flare, please cancel asap. Any type of massage work is contraindicated and will drive whatever is brewing deeper into your body, exacerbating symptoms. I have read this in the Policies and Procedures section.

I understand that I will not commit to any bodywork appointments within two weeks of receiving *any* vaccine.

(This follows the same reasoning as the statement regarding feeling sick, and to ensure my own well-being as a result of shedding).

I understand that I will speak up to what my body feels and is needed, and Adrienne will ask at the beginning of every session, honoring that space. If I need less or more pressure during techniques of massage, I will communicate with her. This session is for
